

COMMUNITY ALERT

NOT IF, BUT WHEN

WITH TED ADAMS AND MIKE WILLIAMS

COMMUNITY ALERT LOCAL PRIMARY WILDFIRE FREQUENCIES

VENTURA COUNTY

These are the primary daily dispatch and initial attack command frequencies. Additional local simplex tactical and mutual aid frequencies may be utilized and subject to frequent change throughout an incident. Large managed fires are assigned their own frequencies from a national frequency pool. This usually occurs 24 to 48 hours after the initial response whereupon local frequencies are frequently returned to normal operations.
